

ASBURGO & LIBERTY

Hand cut, mouth blown crystal flûtes, designed by R. Cantoni with an extremely fine 'pérlage' point'

1794
ASBURGO
Capacity 7.oz.

1795
LIBERTY
Capacity 7.oz.

The 'Pérlage Point' is the pointy bottom of the flute that forces the bubbles to their smallest size and hence creates the optimal conditions for a full appreciation of all sparkling wines. The 'pérlage point' of Liberty & Asburgo is one of the most impressive achievements of contemporary mouth-blown glass making. Few companies are today capable to work the crystal to such a level of mastery and precision.
